Subject: RE: Revised CAE Sampling Protocol

I just spoke to Dave Ettore. Sampling is scheduled to start at the Drugmand statio at 9 am on Tuesday, August 2. Alex and I will be meeting Dave at Southpointe (outside of the office) at 8:30 am. If there are any changes to the schedule, Dave will email me with the information, and I will update you. The following safety gear is required: FR clothing with high vis stripes or a high vis vest (MarkWest will provide a vest, if necessary; we will probably need to let Dave know ahead of time if we need them to provide a vest), steel toes, hard hat, safety glasses.

Subject: RE: Revised CAE Sampling Protocol

Beth and/or Alex:

Chip Hosford (cc'd) from EPA Region 3 might be able to attend the Drugmand sampling event. Is it still planned for August 2nd? Can you please confirm with us the date & time, where you will be meeting the company, and any other specifics?

Let us know so Chip can check to see if it will work within his schedule. If it does, we will confirm with PADEP and the company, seperately, to notify all of his planned presence.

Thanks in advance,

Chris

Thank you, Mark. We have not received any of those details. Please coordinate with MarkWest, directly, and keep us informed on the status.

Chris

Hi Chris

Beth Speicher of our Operations staff & Alex Sandy of our NSR staff will attend. Do they need to coordinate logistics directly with MarkWest or do you know the time & meeting place?

I will forward the protocol to them separately.

Mark

Subject: FW: Revised CAE Sampling Protocol

Enforcement Confidential;

Mark, John, and Michael:

Please see the modified protocol, attached. I believe this version resolves issues (experienced during June) with obtaining samples at pressures lower than 200 psi.

MarkWest plans to implement the sampling on August 2 at Drugmand. Let me know if PADEP will be able to attend the event.
